to question regarding Chinese plans for future talks with U.S., CHEN replied that he has no information, but so far as he knows, Peking has no current plans for early renewal. Chen also pleaded ignorance on when Chinese Ambassador would return.

British Ambassador's impression was that Chen very badly informed about current affairs in China. He was even at complete loss when asked about recent diplomatic moves in Peking by East European countries. He replied only "Peking is 10,000 miles from Warsaw."
